Saute Ste. Marie Canal.

The following is the Supplemental Act to the Sault Ste. Marie Canal Law, which we amounted the other day as having passed:
Section 1. The People of the State of Michigan esset. Sault Ste. Marie Canal Law, which we almonited solved day as having passed:
Section 1. The People of the State of Michigan esset,
That the commissioners appointed under an act to provide
for the construction of a ship Canal around the Salis of St.
Mary's, approved Feb. 5, 1833, are hereby authorized, in
case they shall find it is impracticable to let the construct
for the construction of said canal, on terms which will secure its completion according to the provisions of said act,
in their discretion, to contract that any taxes to be assessed
on the lands denated for that purpose, shall be remitted to
the person or persons taking such contract for a period not
exceeding five years from the time fixed for the completion
of said Canal; provided, that when the said iands shall be
of said Canal; provided, that when the said iands shall be
sold by the contractors to any other person, the same
shall be thereafter subject to taxation as in other cases.
Sec 2 For the purpose of carrying out the provision of
the foregoing section, the Andien General is kereby required, upon satisfactory evidence, that any of said lands
are held by such contractors and have not been said by them,
to receipt the amount of any such taxes assessed within the
period fixed upon in such contract, and returned to his office
for non-payment, and to charge the amount thereof to the
general found. Provided, That the amount so charged to

general found, and the charge the amount thereof to the
general found. Provided, That the amount so charged to
general found, such manner as shall be provided by law
in case said amount shall not be reimbarsed by the United
States Government.

This act shall take effect immediately.

Approved, February 12, 1833.

The Detroit Adecriver has the following account of
the plan adopted for the Canal:

According to the plan of construction now adopted by
the Commissioners, the Canal, including the piers at the
upper end will be 5,262 feet in length, or 18 feet les

The prism of the Canal will be principally through The prism of the Canal will be principally through the rock which commences 300 feet from the outside line of the first cutting in Lake Superior, and extends to within 502 feet of the upper line of the second lock, where it takes a sudden dip beneath the soil, and it has not yet been ascertained whether it again comes near enough the surface to serve as the foundation of the lower lock structure.

The average depth of the rock-cutting will be nine feet and seven-tenths. The rock is a red sand-stone, in this livers and onen seams, will probably only require

The average depth of the rock is a red and stone, in this layers end open seams, will probably only require about half as much blasting as solid rock of the same kind. The whole amount of rock-cutting is calculated to be 113,963 cubic yards. The earth excavation will be 106,963 cubic yards. The masonry required will be 14,138 cubic yards. The timber required for the Piers, Wharf, and for the lock foundations, will be 151,710 cubic feet. The amount of Plank required will equal 371,900 feet, board measure. The iron for bolts, exclusive of what will be required for the locks and lock gates, will round seven eighths, and the amount required will reach 15 tuns.

It is thought that the grey limestone to be obtained at Drummond's Island, about forty miles distant from the Sault, at the mouth of St. Mary's River, will be suitable for the construction of the locks. All the timber necessary to be used in the work can be obtained anywhere in the lower peninsula from Mackinaw to Saginaw, in abundance.

For much of the information relative to the estimated For much of the information relative to the estimated quantities of work and materials which will be required we are indebted to Captain Canfield, the very able Chief Engineer selected by Governor McClelland to superintend and plan the work, and who also made the survey and report which the Governor submitted to the Legislature, and which enabled them to act so understandingly on the subject. That report was ordered to be printed, and, as a mark of the civilization and courtesy for which the majority of the members of the present Legislature were distinguished, we may as well mention that they neglected to order that a few copies of Capt. Canfield's own report should be put at his command, so that he could supply those who have since applied to him for copies of it.

AGAIN ARRESTED .- Last summer a man named Walker was principally concerned in selling two free negroes, one to Mr. Zigler, of this city, the other to Mr Moore, of Boonville. When the cheat was exposed, negroes, one to Mr. Zigler, of this city, the other to Mr. Moore, of Boonville. When the cheat was exposed, Walker fied from St. Louis, taking one of the negroes with him, and resold him at Memphis. He went from thence to Louisville, and there assuming the name of Bowman, engaged with one Dr. Whitney in a fraudulent flour speculation, in which they were detected and apprehended. While in jail at Louisville, he was claimed by the authorities of Missouri, Tennessee and Kentucky, at the same time. He was given up at last by order of Cov. Powell, to Marshall Felps, who brought him back to St. Louis. Bowman was subsequently admitted to Gov. Powell, to Marshall Felps, who brought him back to St. Louis. Bowman was subsequently admitted to bail here, but forfeited his bond, and ran off. He was arrested again, we learn, in Louisville on the 18th, as a suspected felon. About \$40 in counterfeit money and altered bills was found in his possession.

The News also has the arrest of two men in St. Louis for selling four negroes supposed to be kidnapped.

IMPORTANT DECISION .- In the great case of IMPORTANT DECISION.—In the great case of Sturges & Anderson, vs. Longworth, on bill of review, from Hamilton County, the Supreme Court, on Saturday, pronounced an opinion in favor of the plaintiff. This case involves the title to rome 40 acres of land is Cincinnati, which was bought by Nicholas Longworth many years ago on sale by administrators. From some defect in the proceedings, the sale is now set aside, and the heirs of the deceased have the benefit of the enormous rise in value. ARREST OF ONE OF THE MEN ENGAGED IN THE PRIZE FIGHT .- On Tuesday night, about 8 o'clock, Capt. Stevenson of the Sixteenth Ward arrested John Adams, one of the parties who was engaged in a prize fight on Tuesday afternoon, at Riker's Island, in day, March 2, 1853; Butler's porter-house, corner of Twenty-fifth-st. and Ninth-av. The Captain having knowledge that a prize fight was to come off, followed up the matter from early Tuesday morning, but lost sight of the parties about noon. The pugilists, meantime, succeeded in leaving the City, and engaged in a pugilistic encounter on Riker's Island, as was reported in Wednesday's Tribuse.

About 8 o'clock in the ever Capt. S. heard that
Adams was being carried in
amed, when taking with his or six choice men,
he repaired to Butler's house and asked if Adams was there; he was answered in the sifirmative. The Captain then went up to the parlor and apprehended Adams and a man named Robert Lee, who got up the fight. As the Captain came down stairs with his prisoners, a large crowd of rowdies and fighting characters swore that Adams should not leave the house. The officers, who were outside, were called in, and after sonsiderable resistance, in which the police received some hard knocks, the prisoners were taken to the Sixteenth

Ward Station-house and locked up.
On being taken before Justice Stuart Wednesday morning, Adams was locked up to swait the orders of the authorities of Westchester County. [It seems that no punishment can be indicted for prize fighting except in the County where the act is committed. It is not a crime in the eye of the law to start upon a prize fighting expidition, consequently no crime had been

ANOTHER MURDER IN THE FOURTH WARD -On Tuesday evening a difficulty occurred in the porter house or grocery store of George Struss, No. 379 Water-st., corner of Oliver, between John McCabe and one Peter Laspey, alias French Pete, respecting a game of cards which they with others were playing on a table in the room. Laspey becoming highly excited, and, fearful of attacking and engaging with McCabe in single combat, left the shop, but soon returned with two friends named Jerry Kelly and Wm. Sinclair, when they all attacked McCabe in the house, where a terrible fight ensued. Others in the room interfered and partially checked the row; but the belligerents soon w into the street where the quarrel was renewed with increased vigor, which resulted in McCabe being struck on the back of the head with a heavy weapon, or knocked to the pavement with such force that his skull was fractured. The alarm was instantly raised, when Officers Riddden, Langdon, Glesson and McGuire of the Fourth Ward car me up and arrested Laspey and Kelley before they had time to escape. The injured man was picked up insensible and died in a few moments afterward. His remains were conveyed to the

Fourth Ward Station House, where Coroner O'Donnell was notified to hold an inquest, which he will do this afternoon. The accused parties, together with a number of witnesses, were locked up to await the result of the Coroner's investigation. The deceased was about 45 years of age and boarded at No. 1 Readest. The New-York Chamber of Commerce held its regular monthly meeting on Tuesday afternoon, at the Merchants' Bank. But little business of import-

ance was transacted. Mesers. Wm. Hoge, William C. Sturges, George M. Clearman, and Thos. P. Bucklin were elected members of the Chamber, and Mr. Edward Hinckes was elected to the Arbitration Committee, in place of Captain E. E. Morgan, whose term of service had ex-

A communication was received from Edward C. Coo-A communication was received from Edward C. Cooper, in relation to manufacturing salt from ocean water. Accompanying it was a plan of salt works constructed last season on City Island, East River, but too late in the season to form salt, and abandoned for want of funds. They are formed of inclined plunes, made on the earth, of hydraulic cement, taking four barrels to every thousand feet of surface. It is estimated that \$5,000 would construct ten acres, or more, of works, yielding upward of 10,000 bush, of salt annually. The patronage of the Chamber is requested. The communication was ordered to be placed on file.

WILLIAMSBURGH, Tuesday, March 1, 1853.
MR. EDITOR: I was much interested in the Mr. Editors: I was suited interested in the communication of "A Poor Mechanic" and your remarks on the same in to-day's paper. Permit me to make a few suggestions as regards lying, which cannot fail to benefit all poor mechanics who heed them. First, let all poor folks make it a study how to spend their money to the best advantage, so that they may feel sure when they spend a dollar that they are deriving all the good from it that it will possibly yield. I have found, from experience, that money spent for rum, tobacco, mest, butter, tea and coffee, is not spent in such a way one. Since I have left of the use of tea and coffee, meat and butter. I find my health has improved, and that formerly enjoyed what the world calls good living. Now that four is but three cents a pound, and meat is ten to fifteen, and butter twenty to thirty cents a pound, it is desirable for poor mechanics and needle-women to know that a pound of flour will nourish the system as much as a pound of meat or butter. I will stop, lest I treepase too much on your valuable space.

A Triarving Mechanic.

The whole affair was a mystery. Many companies took up their hose and went home. Officer Devoe, of the Chief's Office, who was in charge of a room up stair, discovering an increase in the moke, demanded the keys of the store for the purpose of investigating the matter. As he unlocked a door at the back of the store, an explosion at that moment occurred, blaving out the entire front of the tailoring establishment, and but for this occurrence. Mr. D. would have been burnt to death; as it was, the great shock slightly stunned him. In an accound after the explosion, an immense body of thane burst fourth, and set fire to the blinds and wood work in the second and third-story windows. Several streams of water were, however, soon at hand, and the flames quickly subdued. The building is damaged to the amount of shout \$1,000.

R. It appears that the deceased and Mr. John Gunzhman, of No. 401 Ninth-av, were walking upon the pier, and on getting to the further end of it, the night being dark, the deceased stepped overboard. A versict was rendered that the deceased came to his death by drowning, and that the drowning was occasioned by the string-piece on the dock not being above the sidewalk, and no protection from falling into the water.

ARREST OF A HOUSE BURGLAR.—About four o'clock yesterday morning, Officer Miller, of the Sixteenth Ward Police, while patroling his beat, discovered a light dodging jabout in the house of Mr. J. R. Sherman, No. 35 West Twenty-econd-st., and thinking it possible that a third was in the house, he first called to his assistance Officer McCafferty and then rang the bell of the house. After a short pance a man of genteel appearance opened the door, having an elegantly mounted cane in his hand and a new overcost on his arm. He represented himself to be Mr. Sherman, and was about to go off when the officers took him into custody. Mr. Sherman was then awakened and the house was searched, when it was discovered that several rooms had been entered and trunks and drawers overhauled. The hat, cane and cost which the prisoner bad with him when arrested proved to be the property of Mr. Sherman. He was taken before Justice Stuart, who locked him up for trial under the name of Henry Jackson. ARREST OF A HOUSE BURGLAR.-About four

GENERAL TERM.

Ward, Burdett & Parkhurst agt. James. Hubbard and Elias. Hubbard.

Plaintiffs in 1849 sold on credit to James. H., doing business in Brooklyn, dry goods to the amount of about \$2,500, and afterwards got out a writ and took back all they could find, on the ground that James premised to give the endorsed rotes of his father, Elias H., but falled to do so. On the trial in 1890, defendants set up that there were no such conditions, but the sale was boun fide; and it was also alleged by Blias, that James had made an ase gament to him, and that a portion of the goods taken belonged to him. Judge Marvin, who tried the case, charged the Jury that plaintiffs had no valid claim, and a verdict was rendered ascordingly, which was affirmed by the Special Term, and further appeal made to this Court. Argument was heard.
